

Work Safer. Work Smarter. Spend Less.

We believe that the size of your business (or budget) shouldn't limit your ability to combat cyber threats. That's why we created Judy, the all-in-one cybersecurity platform that's easy to install, easy to manage, and provides the protection and support you need—at a price you can afford.

Easy-to-Use, All-in-One Platform

Onboarding new software can be daunting, which is why Judy's all-in-one platform includes everything you need to get your team up to speed. You'll save time and resources while keeping your information secure and your team happy, safe and productive.

Security You Can Trust

Designed to be both effective and affordable, Judy was built to the highest industry standards using the latest technology. With Judy, you can be confident that your most sensitive customer and company data is always under lock and key.

24/7 Protection and Support

Backed by next-gen automated threat monitoring and remediation (and by Judy's live customer success team), Judy delivers the protection and cybersecurity services you need – without the cost of additional staff or contractors.

Meet Judy.

She's your virtual cybersecurity solution, and the heart (and brains) of our platform. Judy works 24/7 across all your devices to secure your most sensitive company and customer information. Built using the latest AI and machine-learning technology, Judy leverages a robust set of features to protect your brand, your customers, and your bottom line.

All-in-One Doesn't Mean One-Size-Fits-All.

Judy is scalable and built specifically to fit the needs of SMBs. We offer three levels of protection to meet you where you are right now, and continue on as your trusted cybersecurity solution as your business grows.

Judy's Blue Team:
Cloud SIEM + XDR

Powerful security built for SMBs. Judy makes it easy.

Meet Judy (and your new security team).

Get the protection you deserve—all at a price you can afford. Judy's Advanced and Premium subscriptions provide automated threat monitoring and remediation with a powerful Security Information and Event Management (SIEM) solution, along with a live team of security experts to protect your environment. Combined with Judy's next-gen Endpoint Detection and Response (EDR), you have access to a complete XDR solution—without the cost or hassle. It's streamlined, simplified security, without compromise.

We do the heavy lifting, so you can focus on building your business.

Built specifically for the needs and budgets of small and midsize businesses and their managed service providers, Judy delivers real-time visibility and reporting across your network and all of your cloud-based applications quickly, to detect and respond to threats around the clock.

Same Day Security

Get up and running in minutes (5x faster than the industry average and complete security coverage within hours.

Detect & Contain Threats

Behavior-based, 3-step detection and response cuts through the noise to prevent critical threats like ransomware and data breaches.

Unmatched Value

Streamline your offerings with threat detection and response as part of Judy's all-in-one security platform—priced per user, never data or devices.

Custom Reporting

Get on demand access to the reporting you need to meet compliance and demonstrate a strong security posture.

Judy Essential

Built to provide a solid cybersecurity foundation for even the smallest businesses, Judy Essential is just that: essential cybersecurity. A light but powerful solution that's easy to use and manage, Judy delivers everything you need to secure your business (and nothing you don't), including live customer support to help when you need it most.

- DNS Filtering and Endpoint Detection and Response (EDR) provide advanced anti-phishing protection and automated, 24/7 security for your entire digital environment, with no limit on the number of devices you can secure.
- Judy's Password Manager and Single Sign-On portal (with an integrated mobile app for secure, passwordless authentication) keep unauthorized users out of your business, reduce the risk of incidents caused by human error, and keep you in compliance.

Judy Advanced & Premium

As you grow, so do your compliance and security needs. Judy was built to scale with you so you can avoid the hassle of sourcing and onboarding new solutions. With our Advanced and Premium options you'll have access to the same powerful security and compliance tools, training and talent as the enterprise, for a fraction of the cost.

Judy's Blue Team: Cloud SIEM + XDR

Automates threat monitoring and remediation with a powerful Security Information and Event Management (SIEM) solution, along with a live team of security experts to protect your environment.

- 1-year log retention for unlimited data
- 24/7 security operations support for critical issues
- Detection rule management, allowlisting and customization
- Automated blocking of threats with dynamic blocklists
- Honeypots
- Support for firewall and Windows/ Linux logs
- Custom and scheduled reporting 60+ integrations at no additional cost
- Instantly deployable

Security Awareness Training*

Short, animated, monthly episodes based on real incidents to provide a fun, engaging way to help your organization meet compliance and prevent security incidents caused by human error. The program is easy to deploy and manage to help your team stay aware of the latest security threats.

Automated Compliance Management & Reporting*

Provides one-click access to best-in-class tools to easily map to frameworks including: SOC2, NIST, CMMC, PCI and more. With Judy on your side you'll be able to win and retain business, and ensure audit and reporting requirements are met—for a fraction of the cost and effort.

*Features available with Premium Only (also includes Endpoint Risk Assessment Scan to identify vulnerabilities across all your organization's users and devices).
