AaDya®

Meet Judy,
The Cybersecurity Your Clients Need.

Built by AaDya Security, Judy is the all-in-one cybersecurity solution for small and midsize businesses. She's smart, she's sleek and ready to help your clients' cyber environments stay secure for a fraction of the cost and effort. Partner with us today to offer your clients exclusive access to Judy (and scale your MSP).

Easy-to-Use, All-in-One Platform

Our all-in-one platform streamlines your security offerings into a unified solution that is easy-to install, manage and maintain, empowering you to deliver powerful, hassle-free security to your clients.

### Security You (and Your Clients) Can Trust

Designed to be effective and affordable, Judy was built to the highest industry standards using the latest technology, so you can be confident that your client's most sensitive customer and company data is secure.

24/7 Protection and Support

With next-generation threat detection and response, a fully-managed SOC and live customer support, Judy allows you to quickly and efficiently deliver the cybersecurity your clients need to stay compliant and protected.

All-in-One Doesn't Mean One-Size-Fits-All.

Judy is scalable and built specifically for SMBs. We offer three levels of protection, from essential security tools, to a full XDR solution, so you can meet your clients' current needs, and continue on as their trusted cybersecurity solution as their business grows.

|	Essential	Advanced	Premium
DNS Filtering	⊘	⊘	⊘
Secure Authentication	⊘	⊘	⊘
Password Manager	⊘	⊘	⊘
Endpoint Detection & Response (EDR)	⊘	⊘	⊘
Mobile App (Apple & Android)	⊘	⊘	⊘
Extended Detection & Response (XDR)		⊘	⊘
Automated Compliance Management & Reporting			⊘
Security Awareness Training			⊘
Endpoint Risk Assessment Scan			⊘

Be Part of Something Big.

At AaDya, we're on a mission to deliver smart, simple, accessible and affordable solutions to small and midsize business customers. And we're building a network of like-minded, forward-thinking partners to get it done.
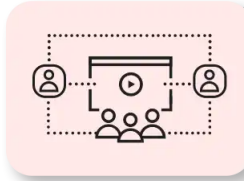

Are You Ready to Join us?

Partnering with AaDya allows you to position your business as a trusted and innovative cybersecurity advisor to your SMB customers, and the opportunity to grow your business through new customer acquisition and a healthy monthly recurring revenue stream. Our team provides unmatched, personalized product, sales and marketing support with access to tools and training to help you succeed.

Choose the level of partnership that's right for you and your clients.
